Edmonton's Chance to Help. All Edmonton should be at the fair grounds

The country has rallied to the support of the r in a way that bespeaks success, perhaps be-

their own enterprise as loyally as outsiders support it.

Emouton is the only place that "gets any
the superior of the fair" districtly.

Everyone in Edmonton shares, directly or in
directly, in the money that is left in the clay
the theronging visitors from points outside;

And in the proceeds from the trade that is
done in Edmonton stores during the fair and because of business connections made by visitors.

Self-interest and civic loyalty combine to urge
the citizens of Edmonton to show their enthusian

Self-interest and civic loyalty combine to urge
the citizens of Edmonton to show their enthusian

for an event which brings the country to the city,
for the entertrainment of the guests and the profit
of the hosts.

Dissolution No Calamity.

Argument based on the supposition that the dissolution of Parliament was in the nature of a national calamity is very much wide of the mark. Opinions differ sharply as to the means the point that dissolution was due, if not over-due.

The late House of Commons had ceased to be an effective governing body before it was deprived of the name and status.

When a legislature ceases to be able to When a legislature ceases to be able to when the status of the country falls under Government by conspiracy.

whee the country falls under Government by conspiracy.

Canada requires, and is entitled to. A Parlia,
ment which can live up to the name. That it did
not have once the Progressive party split and the
House wrecked one. Government and promptive
declared want of confidence in the only alternain. In those circumstances dissolution, and dissolation only, could restore to the public the right
to have a Parliament that could function and
Government that could govern.

However the situation arose, and whoever was
entitled to advise a dissolution and to centred the
machinery for taking the voite, an election with
the new vary to abelish a Parliament that had became a farce.

A Real War, Not a Shadow Bout.

The city council have given Mayor Blatchford and Commissioner Mitchiel if ere hand to go before the Public Utilities Commission, knock the presentations of the gas company into pieces, and get a ruling that the frauchise granted to the common of much city is something more than a common of much city is something more than a

Commonton Bulletin Our Daily Poem OUT OUR WAY

Somewhere within that infant aoul, may glow

5.00 A spark that, genity shielded by thy love.

The pathway to those trangul heights above.

Which treading, man from war and strife shall wankind may find it by hade the guide to peace.

THIRTY YEARS AGO
THIRTY YEARS AGO
Bulletin, Monday, July 18th

That "Lack" Legislation.

The motion has the unfinished legislation which was before Parliament was only "lost" which was before Parliament was only "lost" which was before Parliament them to modification.

Hail Parliament been kept going until those measures had been duly incorporated into the statute books, that would not have guaranteed permanency to the farm loans bill or any other lates the parliament been supported in the statute books, that would not have guaranteed permanency to the farm loans bill or any other lates where a same had been incorporated into the statute books, that would not have guaranteed and a platform bulk. Miss Richardson president and the poster promised chort indifferent control of the lift.

Legislation put into the statute books at one session can be ripped out at another session, and the session can be ripped out at another session, or amended so as to destroy its usefulness.

A law only remains a law until Parliament wants to change or abolish it. That is to say, tutil a Government attains power which think it should not be law.

The unfulnished legislation has not been lost, save temporarily, unless Mr. Meighen wins at the male.

Makey—Pro-Backimon challenge oup match was been lost, and the second of the control of the Edmanton We million district of the CNM.

Makey—Pro-Backimon challenge oup match was

The unfinished legislation has not been took, seemon and the legislation has not been took, seemon and the legislation has a few parts of the C.N. Hittley—The Mackinson challenge cup match was seen to load by the South team, with Engiand second and be "loat" if he willed it, regardless of where or not the job Parliament completed it. It would profit the country little if the last liment had enseted this unfinished legislate only to have the succeeding Parliament wipe off the statute books.

Which should Mr. Meighen win, is exactly

Fluffy or Flinty?

which kind of "Carbon" comes from the oil you use?

'Aristo Motor Oil is all lubrication, containing neither paraffin nor asphalt. The hard, flinty abrasive "carbon" that many motorists find on valves, cylinder heads and spark plugs after a few thousand miles of use never comes from this fine Western oil.

Hestern oil.

The small amount of residue that Aristo leaves is a fine, soft, fluffy substance, most of which blows out with the exhaust.

Motors in good condition which hare lubricated with Aristo, therefore, run several years without the troubles, lay-ups and expense so often due to "carbon."

A further preventative of "carbon" is the use of non-detonating Union Gasoline with Aristo Motor Oil. This combination is probably the most effective that is known.

KEEP THIS ANNOUNCEMENT FOR FUTURE REFERENCE

Share in Alberta's most promising Industry

"When the Standard Oil Trust was dissolved, it developed that 80 p. c. of the profit in petroleum was made by the refining end."

"Potroleum is one of our most valuable natural resources. . . The refuing of petroleum must become our fore-most industry."

PRESIDENT Stillman, of the Imperial Oil Co., and various other authorities, boxed for dicting that Alberta's oil resources, when further developed, will prove up this Province as one of the world's most extensive storchouses of the precious petroleum

Geologists innumerable, today carrying on the exploration work thus suggested, and promoting geniuses supported by public money doing actual development, are bringing out these facts in unmistakable fashion.

Alberta is on the threshold of a tremendous future as a producer of petroleum, a national resource, second to none in importance in the scheme of world affairs.

BUT today Canada is paying about \$120,000.00 a year for gasoline and petroleum products, and Alberta alone with billions of dollars worth of oil under the ground has contributed millions for the same purpose.

By far the greatest profit in the production of petroleum products is reaped by those who refine and market them, according to the most reliable sources.

Thus the situation at present demands an adequate refining and distributing enterprise so that the money now being paid out to foreign countries for oil shall be retained in Alberta and assist in her industrial development.

A LBERTA Refineries, Ltd., organized and installed a refining plant for the manufacturing of petroleum products from the oil of the adjoining Wainwright fields. This enterprise has been highly successful; so much so that it is unable to cope with the demand made upon the 1,000 barrel-a-day plant, and another 500-barrel unit is to be added immediately.

The gasoline product of the Alberta Refineries Ltd., is called "Pep," and is a high grade gasoline for which there is a very rapidly growing demand because of its superior

THE Refineries Distributors Ltd., whose shares are now offered to the public, was organized for the marketing of "Pep" products. In addition to their original plans, which include the building and maintaining of service stations for the distribution of "Pep," the present program calls for the erecting of a ""Cracking Plant" by means of which a very important scientific process, extracts from 50 to 70% of gasoline from Wainwright Crude oil.

The details of this cracking process are given elsewhere on this page. It is sufficient to say here that by this means 3 to 5 times as much gasoline will be extracted as by the ordinary refining process now being used at the

to the property of the superior of the superior of the Manuscript field "PEP" has instiffed its name as a 1-ye v, volatile, and kneck gasaline at 1-ye villatile, and the present "PEP" plant is inadequate for 0-demand.

Refineries Distributors Limited

Capitalization ~ \$1,000,000 90,000 Shares, Preferred, \$10 Par Common,

Present Offering: The balance of a Block of 30,000 Preferred Shares at Par each Preferred Share carrying a Bonus of One Common Share,

JOHN L. MERCER, Edmonton, Alberta, President, M. C. HAMMOND, Edmonton, Alberta. J. C. C. BREMNER, Clover Bar, Alberta.

A. B. MACDONALD, Edmonton, Alberta.
W. A. TRIMBLE, Edmonton, Alberta, Secretary-Treasurer.
SWAN SWANSON, Edmonton, Alberta, Director.

REFINERIES Distributors Ltd., was organized with a Dominion Charter, capitalized at \$1,000,000, divided auto 90,000 8% Preference Shares with a par value of \$10,000 cach; and 100,000 Common Shares with a par value of \$1,000 cach, Paid up capital is \$200,000.

the opany was organized to market the "PEP" products of the Albert Refineries Ltd., and also to produce gasoline and other products from crude petroleum by means of a cracking plant, this plant employing the Dubbs process, a great scientific and comonic advance over the ordinary refining plant, extracting from 8 to 5 times as much gasoline from the crude oil.

The passent issue, for the purpose of carrying on the or seediate program of the company, is 30,000 Preference \$3 osc of which 10,000 Shares have already been sold. The Preference Shares are offered in units of 1 at par \$10.00, and each of these Treference shares carries a bonus of 1 Common Share.

The initial program of the company is to creet and manusum a number of Service Intations throughout the Province for the marketing f "PILP" p " in cell petroloum products, a profit of 3e per gallon clear of

freight being available from this source alone at the present market prices.

Apart from the individual profit of the cracking plant unit working at capacity, the output marketed through the service stations shows a distributing profit of \$525.00 per day net. This alone will show a handsome dividend on a \$1,000,0000 caparalization in addition to the \$66 per annum on the preferred shares.

the 8s per animum of the preferred states.

Detailed figures will show this enterprise to be one of the very highest potentiality for profit. We shall be pleased to send a digest of the situation, based upon actual conditions, to the carnest investo.

In the meantime the soundness of the proposition will appeal to the investo given the proposition will appeal to the investo given the proposition will appear to the investor given to the proposition will appear to the contract of the proposition of the proposition will appear to the proposition of the proposit
